

Subject Index—Volumes 162-171

A

- Abscess, retroperitoneal, in paraplegics, **171:59**
- Abstracts, of proceedings of forty-second annual meeting of American Fracture Association, **165:303**
- Achilles tendon
calcification of, heel pain in, **167:203**
ossified, fracture of, **169:148**
- Acid phosphatase activity, in chondrocytes, **164:279**
- Acrylic cement. *See* Methylmethacrylate
- Actin filaments, in osteosarcoma cells, **171:240**
- Aeromonas hydrophila* infection, in open tibial fracture, **171:117**
- Aging, bone changes in, **162:288; 165:239**
- Alcoholics, bone morphometry in, **165:253**
- Amputations
Boyd, in children, **165:138**
in congenital pseudarthrosis of tibia, **166:58**
of foot, in metastatic disease, survival after, **166:117**
Krukenberg kineplasty in blind amputee, **169:163**
and sensory feedback for lower extremity prosthesis, **169:202**
- Amyloid neuropathy, in multiple myeloma, **171:202**
- Amyloidosis, carpal tunnel syndrome in, **169:159**
- Aneurysm, aortic, bone erosion in, **164:123**
- Aneurysmal bone cysts, methylprednisolone acetate in, **165:39**
- Angiolympoid hyperplasia, eosinophilia with, **166:243**
- Ankle
arthroplasty of, salvage of, **170:184**
fractures of
displaced, unstable, **165:91**
fibular malunion in, **171:145**
peripheral nerve block for foot surgery, **168:97**
- Antibiotics
cefotixin levels in bone and synovial fluid, **168:64**
levels in tissue, tourniquet use affecting, **165:261**
in plaster of paris pellets, **167:263**
- Anus, imperforate, spinal anomalies with, **162:91**
- Aortic aneurysm, bone erosion in, **164:123**
- Arthritis. *See also* Osteoarthritis
in brucellosis, **168:211**
meningococcal, after arthroscopy of knee, **171:127**
pyogenic, of hip, **170:3**
rheumatoid
Down's syndrome with, cervical instability in, **162:37**
foot deformity in, **166:121**
hip fractures in, **170:252**
Morton's metatarsalgia in, **167:214**
Swanson wrist arthroplasty in, **166:132**
synovial fluid superoxide dismutase in, **162:282**
tuberculosis in, **171:206**
- septic
anaerobic, **164:141**
of hip, in children, **171:30**
- Arthrodesis
of hip, conversion to total hip arthroplasty, **162:173**
- spinal
anterior lumbar interbody fusion in, **165:157, 164**
combined fusion in, **164:110**
decalcified bone matrix in, **162:210**
intraoperative awakening in, **168:113**
and nutritional changes in discs, **169:243**
- Arthrography of hip, in children, **162:54**
- Arthrogryposis, familial, **166:182**
- Arthroplasty
grafts in. *See* Grafts
prostheses in. *See* Prostheses

- Arthroscope, development of, **167:6**
 Arthroscopic surgery of knee, **167:4**
 in discoid lateral meniscus, **167:19**
 in fibroarthrosis, **166:165**
 function after, **167:84**
 in lateral patellar release, **167:9**
 in osteochondritis dissecans, **167:50, 65**
 partial meniscectomy in, **164:78; 167:29**
 long-term results of, **167:34**
 in ruptured anterior cruciate ligament, **167:43**
 Arthroscopy of knee, diagnostic, **167:75**
 in children, **162:103**
 meningococcal disease after, **171:127**
 in meniscus pathology, **163:218**
 Aspiring, preventing pulmonary embolism in hip arthroplasty, **168:119**
 Asymmetry, skeletal, **166:199**
 Auscultation of joints, **170:231**
 Autonomic dysreflexia, in spinal cord injury, **169:151**
 Axillary nerve
 compression syndromes of, **163:29**
 palsy of, reconstruction in, **163:81**

B

- Basal cell nevus syndrome, cervical spondylolysis with, **162:26**
 Battered child syndrome, diagnosis of, **162:11**
 Biceps tendon
 lesions in long head of, **164:165**
 subluxing, in athletes, **164:26**
 Biomechanics of pathologic fractures, **169:109**
 Biopsy, closed medullary, **163:214**
 Bladder extrophy, fixation method in, **165:200**
 Blood flow
 in bone, measurements of, **170:286**
 cortical, in dog ribs, **165:265**
 to muscle and skin, pressure affecting, **168:105**
 Bone. *See also* Osteogenesis
 adaptation to loading, **168:265**
 aging affecting, **162:288; 165:239**
 biology of cell membranes, **166:256**
 cefotaxim levels in, **168:64**
 changes in copper deficiency, **168:206**
 changes in shin splints, **178:180**
 decalcified matrix for spinal fusion, **162:210**
 diphosphonate affecting, **165:290**
 erosion in aortic aneurysm, **164:123**
 grafting of. *See* Grafts, of bone
 induction by demineralized matrix combined with marrow cells, **171:251**

- induction by osteosarcoma and chondrosarcoma, **163:248; 171:232**
 intramedullary electrical potentials, **171:256**
 mineral content compared to metacarpal bone mass, in renal failure, **166:104**
 morphogenetic protein fraction, **162:219**
 aging affecting, **162:288**
 from bone matrix gelatin, **171:213**
 in repair of femoral diaphyseal defects, **171:224**
 morphometry in alcoholics, **165:253**
 necrosis of. *See* Necrosis of bone
 remodeling of
 affected by parathyroid hormone, **162:255**
 in large metaphyseal defects, **169:275**
 neural elements in, **166:292**
 strength of cement-bone interface, **163:290**
 surface changes after parathyroid hormone or calcitonin, **164:271**
 Boston brace in scoliosis, affecting renal function, **170:243**
 Boyd, Harold B., **165:2, 4, 6, 10, 14, 16**
 Boyd amputations, in children, **165:138**
 Braces in scoliosis
 Boston brace affecting renal function, **170:243**
 Milwaukee, part-time use in juveniles, **167:145**
 Brachial plexus, interfascicular grafts for, **163:71**
 Brucellosis, monoarthritis from, **168:211**
 Burns, nerve injury in, **163:92**

C

- Café-au-lait spots, with disseminated nonossifying fibromas, **168:192**
 Caffey-Silverman syndrome, **163:210**
 Calcaneus
 bifid os calcis, **162:112**
 chronic retrocalcaneal pain, **167:203**
 fractures in children, **171:150**
 Calcar femorale, **164:211**
 Calcification
 of Achilles tendon, heel pain in, **167:203**
 endochondral, mechanisms in, **169:219**
 glycoprotein role in, **162:233**
 Calcitonin
 and calcium phosphate on bone surfaces, **164:271**
 effect on giant cell tumor of bone, **167:277**
 Calcium
 metabolism affected by diet, **162:304**
 mitochondrial, in endochondral calcification, **169:219**

- Calcium phosphate on bone surfaces, after parathyroid hormone or calcitonin, **164:271**
- Camptomelia, histopathology of, **167:152**
- Capitate fractures, **165:209**
- Carpal bones, rotational behaviors of, **167:303**
- Carpal tunnel syndrome, **163:25**
in amyloidosis, **169:159**
relation to thoracic outlet syndrome, **164:149**
- Cartilage
- articular
 - in dislocated hips, **171:287**
 - growth hormone and thyroxine affecting, **162:270**
 - chondrolysis from slipped capital femoral epiphysis, **165:99**
 - chondrosarcoma. *See* Chondrosarcoma
 - debris in knee injuries, **168:144**
 - degradative enzyme activity in chondrocytes, **164:279**
 - electric current affecting chondrogenesis, **163:243**
 - endochondral calcification mechanisms, **169:219**
 - hyaline, interlacunar network in, **170:277**
 - isolated fetal models of, **164:287**
 - matrix antigens in allografts, **168:243**
 - in metachondromatosis, **169:167**
 - osteoarthritis, collagen in, **167:296**
 - osteoartilaginous grafts
 - computed tomography in management of, **166:112**
 - for arthroplasty, **165:49**
 - proteoglycans affected by pressure, **165:283**
 - pulsed electromagnetic fields affecting, **167:280**
 - reversibility of glycosaminoglycan depletion in, **168:258**
 - support by methacrylate in hip arthroplasty, **171:273**
 - synovial chondromatosis
 - type II collagen in, **168:173**
 - ultrastructural features of, **168:178**
- Cast-bracing, femoral
- ischemic complications of, **162:189**
 - shortening and angulation from, **168:139**
- Casts
- plaster uses and misuses, **167:242**
 - spica casts in dislocation of hip arthroplasties, **171:53**
 - tightening of split cast, **166:141**
- Cefoxitin levels, in bone and synovial fluid, **168:64**
- Cement. *See also* Methylmethacrylate
- improved fixation system for total hip arthroplasty, **164:221**
 - layering of, weakening in, **171:94**
 - silver antibacterial, **169:264**
 - strength of cement-bone interface, **163:290**
- Cervical spine
- acute tear-drop fracture of, **168:108**
 - hyperostosis of, dysphagia in, **167:168**
 - instability in rheumatoid arthritis and Down's syndrome, **612:37**
 - microscope in surgery of, **168:17**
 - polytomography of, **165:64**
 - radiculopathy of, traumatic, **164:18**
 - spondylolisthesis with basal cell nevus syndrome, **162:26**
- Charcot joint, hip replacement in, **165:191**
- Charnley hip arthroplasty, radiographic analysis of, **163:210**
- Chemoneurolysis failure, surgical treatment of, **165:172**
- Chemotherapy, in metastatic disease of bone, **169:28**
- Childhood conditions. *See* Pediatric orthopedics
- Choline acetyltransferase, in nerve fascicle identification, **165:228**
- Chondroblastomas, epiphyseal, methylprednisolone acetate in, **165:42**
- Chondrocytes. *See* Cartilage
- Chondromyxoid fibroma, unusual location of, **164:249**
- Chondrosarcoma
- bone induction by, **171:232**
 - in childhood, **166:226**
 - collagen synthesis by, **168:252**
- Chromium in synovial fluid, from knee prosthesis, **170:179**
- Circulation. *See* Blood flow
- Clavicle, enchondroma of, proximal, **167:239**
- Clinical information management, in orthopedics, **164:154**
- Clubfoot, arterial malformations with, **167:160**
- Coagulation, disseminated intravascular, in surgery for scoliosis, **162:41**
- Coated materials, porous
- femoral intramedullary nails, **164:293**
 - knee prostheses, **166:301**
 - microporous metal hip prosthesis, **165:188**
- Cobalt in synovial fluid, from knee prosthesis, **170:179**

- Collagen
 in osteoarthritis cartilage, **167:296**
 synthesis by chondrosarcoma, **168:252**
 type II in synovial chondromatosis, **168:173**
- Colles' fracture, and risk of hip fracture, **171:37**
- Compression
 in amyloid neuropathy of multiple myeloma, **171:202**
 in lumbar spinal nerve lateral entrapment, **169:171**
 of median nerve. *See* Carpal tunnel syndrome neuropathy from, **163:20**
 prevention with silicone cuff, **162:276**
 of suprascapular nerve, by ganglia, **166:185**
 of thoracic spinal cord, in ossification of posterior longitudinal ligament, **166:82**
- Compression dressings, and blood flow to muscle and skin, **168:105**
- Computed tomography
 in femoral neck anteversion, **163:185**
 in myositis ossificans, **168:187**
 in osteochondral graft management, **166:112**
 in spondylolisthesis, **166:62**
- Contractures of gluteus maximus muscle, **162:185**
- Copper deficiency, skeletal changes in, **168:206**
- Coracoid fracture, from Mersaline tape, **168:133**
- Cornelia de Lange syndrome, **171:180**
- Cortical blood flow, in dog ribs, **165:265**
- Cortical hyperostosis, idiopathic, **163:210**
- Corticosteroid injections
 methylprednisolone acetate in bone cysts, **165:33, 43; 166:204**
 tendons affected by, **163:170**
- Cotrel device, in scoliosis, **165:168**
- Cranioplasty implants of bone, sterilization methods for, **168:230**
- Cruciate ligaments
 anterior
 repairs of, **164:54**
 rupture of, arthroscopy in, **167:43**
 congenital absence of, **162:108**
 posterior, reconstruction of, **164:59**
- Cryosurgery, in bone tumors, **163:231**
- Cysts
 of bone, methylprednisolone acetate in, **165:33, 43; 166:204**
 popliteal, idiopathic and symptomatic, **164:306**
- Diaphyseal dysplasia, **171:186**
- Digital nerve, interfascicular grafts for, **163:71**
- Diphosphonate therapy, affecting bone, **165:290**
- Disc conditions
 discitis in children and adolescents, **162:31**
 failed lumbar disc surgery, **164:93**
 fluid flow affecting disc nutrition, **170:296**
 and nutritional changes after spinal fusion, **169:243**
 surgery after chemonucleolysis failure, **165:172**
- Dislocations
 of elbow
 in head injuries, **168:38**
 with radius fracture, **168:35**
 recurrent traumatic, **169:211**
 of hip, congenital. *See* Hip, congenital dislocation of
 of hip arthroplasty, spica casts in, **171:53**
 lunate and perilunate, **164:199**
 patellar
 conservative treatment of, **171:131**
 experimental, **169:259**
 intra-articular, **171:137**
 of radial head
 posterior, isolated, **168:136**
 tardy ulnar palsy with, **167:260**
 of shoulder. *See* Shoulder, dislocations of
 of thumb metacarpophalangeal joint, complex dorsal, **164:160, 208**
- Down's syndrome, rheumatoid arthritis with, cervical instability in, **162:37**
- Dupuytren's disease, on radial aspect of hand, **168:222**
- Dysphagia, in cervical hyperostosis, **167:168**
- Dysplasia
 diaphyseal, **171:186**
 of hip
 metatarsus adductus with, **164:234**
 untreated, in Navajos, **162:69**
 radial, and thrombocytopenia, **162:129**
- Dysreflexia, autonomic, in spinal cord injury, **169:151**

E

- Ecchordosis physaliphora vertebralis, **163:282**
- Elbow
 arthroplasty of
 complications of, **170:204**
 nonconstrained, **171:156**
 revision of, **170:196, 213**
 baseball injuries of, **164:30**

D

- Decompression, in spinal metastases, **169:103**
- Dens fracture, impacted, **167:173**

- dislocations of
 - in head injuries, **168:38**
 - with radius fracture, **168:35**
 - recurrent traumatic, **169:211**
 - in epicondylotrochlear fracture of humerus, **171:161**
 - fracture of, in head injuries, **168:38**
 - in hyperextension supracondylar fractures of humerus, **171:309**
 - medial epicondylar epiphysis fracture of, **171:172**
 - triceps-sparing approach to, **166:188**
 - Electric current, affecting chondrogenesis, **163:243**
 - Electrical potentials, in medullary bone, **171:256**
 - Electromagnetic fields, pulsed
 - in congenital pseudarthrosis of tibia, **165:124; 166:45**
 - effects on cartilage, **167:280**
 - Electron microscopy, of synovial chondromatosis, **168:178**
 - Electrostimulation
 - current levels in, **169:303**
 - effects in skin tissue, **171:264**
 - for pain relief, **163:33**
 - preventing disuse atrophy of muscle, **164:215**
 - for sensory feedback with lower extremity prosthesis, **169:202**
 - Elephantiasis, in neurofibromatosis, malignant schwannoma with, **167:164**
 - Embolism
 - fat, posttraumatic, **165:68**
 - pulmonary
 - after hip arthroplasty, **171:68**
 - prevention in hip arthroplasty, **168:119**
 - Enchondroma, of proximal clavicle, **167:239**
 - Ender's nails, in distal femoral fractures, **171:290**
 - Endometriosis, at knee, **171:140**
 - Engelmann syndrome, **171:186**
 - Entrapment neuropathy. *See* Compression
 - Eosinophilia, angiolymphoid hyperplasia with, **166:243**
 - Eosinophilic granulomas, methylprednisolone acetate in, **165:39**
 - Epiphyseal chondroblastoma, methylprednisolone acetate in, **165:42**
 - Erythrocyte sedimentation rate
 - in hip arthroplasty, **168:48**
 - in orthopedic patients, **167:197**
 - Estradiol, osteoarthritis response to, **171:280**
 - Ewing's sarcoma
 - of lumbar spine, **164:126**
 - radiotherapy in, **165:233**
 - Exercise, and anterior compartment width in leg, **167:185**
- F**
- Farabeuf's dorsal incision, in complex dislocations of metacarpophalangeal joint, **164:208**
 - Fat embolism, **165:68**
 - Femoral nerve
 - cutaneous lateral, compression of, **163:29**
 - palsy of, reconstruction in, **163:85**
 - Femur
 - allografts of head with total hip arthroplasty, **162:150**
 - anteversion of neck, measurement of, **163:185**
 - calcar femorale of, **164:211**
 - cortical thickness measurements in, **169:269**
 - double-headed, **162:170**
 - estimation of mechanical strength in neck, **163:272**
 - focal deficiency in
 - distal, **162:99**
 - proximal, **162:135**
 - fractures of
 - after hip arthroplasties, **170:95, 248**
 - distal, fixation of, **171:290**
 - head injuries with, **166:219**
 - intercondylar, knee arthroplasty in, **171:80**
 - and ischemic complications of cast-bracing, **162:189**
 - in shaft, shortening and angulation from cast braces in, **168:139**
 - sliding compression screw in, **163:137**
 - sliding screw plate fixation in, **163:148**
 - slow union of, **168:2**
 - subtrochanteric, bone grafts in, **168:69**
 - intramedullary nail deformation, **171:83**
 - mechanical properties in dogs, **170:303**
 - metastatic disease of, **169:70**
 - neck fractures
 - endoprosthetic replacement in, **167:123**
 - fixation methods in, **171:44**
 - Gilbert bipolar endoprosthesis in, **162:165**
 - postmenopausal, bone status in, **166:143**
 - necrosis of head, transtrochanteric rotational osteotomy in, **169:115**
 - necrosis of medial condyle, **171:109**
 - osteoid osteoma of, with radicular symptoms, **162:191**
 - physeal arrest of neck in Perthes' disease, **171:24**

- porous-coated intramedullary nails in, tissue growth into, **164:293**
- proximal osteotomy affecting growth in, **162:61**
- radiography of rotation of condyles, **167:139**
- slipped capital epiphysis
- chondrolysis from, **165:99**
 - in hypothyroid adult male, **165:204**
 - retrospective study of, **162:87**
- supracondylar extension osteotomies, **171:87**
- Zickel supracondylar fixation device, **169:190**
- in distal fractures, **171:290**
- Fibroarthrosis of knee, arthroscopic treatment of, **166:165**
- Fibroma, nonossifying, **167:269**
- disseminated, café-au-lait spots with, **168:192**
 - methylprednisolone acetate in, **165:41**
- Fibula, malunion in ankle fractures, **171:145**
- Finger conditions. *See* Hand
- Flexor tendon reconstruction, in hand surgery, **171:164**
- Foot
- Boyd amputations in children, **165:138**
 - clubfoot with arterial malformations, **167:160**
 - deformity in rheumatoid arthritis, **166:121**
 - hallux valgus treatment, **165:144**
 - irreducible tarsometatarsal fracture-dislocations, **168:102**
 - metastatic tumors of, **170:219**
 - and survival after amputation, **166:117**
 - metatarsus adductus, with hip dysplasia, **164:234**
 - Morton's metatarsalgia, **163:30**
 - and rheumatoid arthritis, **167:214**
 - multiple metatarsal osteotomies, **164:241**
 - osteomyelitis of metatarsal sesamoid, **167:212**
 - peripheral nerve blocks in surgery of, **168:97**
- Fracture
- of ankle, displaced unstable, **165:91**
 - capitate, **165:209**
 - delayed fixation in, affecting healing, **163:254**
 - fatigue
 - of femoral stem, in hip replacements, **163:127**
 - of pubic ramus, in delayed healing of total hip arthroplasty, **166:162**
 - of femur. *See* Femur, fracture of
 - of hamate hook, **163:180**
 - of hip. *See* Hip, fractures of
 - of humerus. *See* Humerus, fractures of
 - impacted dens fracture, **167:173**
 - of ossified Achilles tendon, **169:148**
 - osteolysis after rigid fixation in, **166:292**
 - patellar, after arthroplasty of knee, **170:147**
 - pathologic, in metastatic disease of bone, **169:53**
 - biomechanics of, **169:109**
 - closed medullary biopsy in, **163:214**
 - of humerus, treatment of, **166:193**
 - resection and internal fixation in, **164:261**
 - pelvic, with painful sacroiliac joint disruption, **166:93**
 - postmenopausal, **166:75**
 - in renal graft recipients, **162:195**
 - scaphoid, bilateral, in child, **162:125**
 - slow union of, **168:2**
 - of tibia, nonunion treated with Küntscher intramedullary nailing, **167:191**
 - united, in children, **166:2**
 - upper extremity, external fixation of, **164:172**
- Fracture-dislocation
- of hip, posterior, irreducible, **167:118**
 - tarsometatarsal, irreducible, **168:102**
- French orthopedic surgery, history of, **171:3**
- Fusion procedures. *See* Arthrodesis
- G**
- Ganglion
- compressing suprascapular nerve, **166:185**
 - extensor indicis brevis muscle with, **162:207**
- Gaucher cells, characteristics of, **166:233**
- Giant cell tumors
- of bone
 - lung lesions with, **162:245**
 - response to parathyroid hormone and calcitonin, **167:277**
 - traumatic pathogenesis of, **164:245**
 - of tendon sheath, at laceration site, **169:207**
- Gilbert bipolar endoprosthesis, in femoral neck fractures, **162:165**
- Girdlestone arthroplasty of hip, **170:83**
- β -Glucuronidase activity, in chondrocytes, **164:279**
- Gluteus maximus muscle, contracture of, **162:185**
- Glycosaminoglycan depletion in cartilage, reversibility of, **168:258**
- Glycoproteins, and calcification mechanisms, **162:233**
- Grafts
- of bone
 - cancellous, osteogenesis in, **163:261**
 - femoral head allografts with total hip arthroplasty, **162:150**
 - subcutaneous storage of, for autograft, **163:113**
 - in subtrochanteric fractures, **168:69**
 - vascularized, in congenital pseudarthrosis of tibia, **166:34**

- and flaps for sensory reconstruction, **163:86**
- matrix antigens in allografts, **168:243**
- of nerve, interfascicular, **163:65**
- osteocartilaginous
 - for arthroplasty, **165:49**
 - management with computed tomography, **166:112**
